

# A SOLUTION TO AFIB

## A FREE SEMINAR

Atrial Fibrillation (A Fib) is a type of irregular heartbeat affecting about 2.2 million Americans. Symptoms are shortness of breath and lightheadedness. Left untreated, A Fib can lead to congestive heart failure or stroke.

Speaker:

**Robert Binford, M.D.**, Cardiothoracic Surgeon

**Join us for a seminar to learn more about the latest treatment advances for correcting A Fib.**

**WHEN:** Tuesday, March 9, 2009  
6:00 p.m.

**LOCATION:** Lakeshore The Meadows (Bellevue)  
8044 Coley Davis Rd.  
Nashville, TN 37221
